

TOUR WASHINGTON, D.C.

We have arranged for a guide to show us the city. He has worked in 3 different Presidential Administrations and knows the "gossip" and the "inside" stories of how it's done up there. We plan to do a night tour of the **lighted monuments**. We already have reservations to see the newly opened **BIBLE MUSEUM** which tells the story of creation from the pages of Scripture. (Just opened a few weeks ago.) It has 430,000 square feet and is 8 stories tall. Relics include first editions of the King James Bible and fragments of the Dead Sea Scrolls. It is the brain child of Steve Green, the evangelical president of the Hobby Lobby.

TOUR THE ORIGINAL, OLDEST, LARGEST AMISH SETTLEMENT IN THE UNITED STATES (This is the most historical Amish settlement in American history.)

We have secured a guide to show us through Amish Country in Lancaster, PA., and to tell us all about the Amish and Mennonites. We will actually eat in an Amish Home served by the family, and other meals include some of the greatest Amish food in existence. We will see a brand new show in the **Sight and Sound Theater**. This year the show is prepared to do a different show **JESUS** in the 2,000 seat spectacular auditorium. An invitation is given at the end of each of their shows whether it's Abraham, Noah, Moses, or Jonah.

This is their peak season, and SPRINGTIME should be beautiful.

We travel by modern motor coach and will stop in Fayetteville, NC, on the way where we will make a brief visit to the Special Forces Museum in N.C.
